PROFESSIONAL SUMMARY

Computer Engineering undergraduate with strong foundations in full-stack web and Android development. Experienced in designing RESTful APIs, implementing authentication systems, and building scalable applications using Django, MERN stack, and Firebase. Seeking an entry-level software developer role to contribute to real-world products and backend systems.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript

Frontend: HTML, CSS, React.js, Next.js

Backend: Node.js, Express.js, Django, Data Structures & Algorithms

Mobile: Android (Java), Flutter

Databases: MongoDB, PostgreSQL, Firebase

Machine Learning & AI: Python, NumPy, Pandas, Scikit-learn (Basic)

Cloud & Tools: AWS EC2, Git, GitHub, REST APIs, Razorpay, Retrofit

EDUCATION

PCET's Nutan Maharashtra Institute of Engineering and Technology, Pune

Bachelor of Engineering in Computer Engineering

Expected 2027

CGPA: 9.09 (Till 2nd Year)

Government Polytechnic Jalgaon (MSBTE)

Diploma in Computer Engineering

2021-24

Percentage: 89.09

Maharashtra State Board

SSC (10th Grade)

2020-21

Percentage: 93.40

PROJECTS

ShopEase : Full Stack E-commerce Platform

Django, PostgreSQL, Razorpay

🌐 [Source Code](#)

- Developed a full-stack e-commerce platform with product browsing, cart, wishlist, and secure Razorpay payment integration.
- Implemented role-based authentication and admin dashboard using Jazmin for managing users, products, and orders.
- Designed RESTful APIs and optimized PostgreSQL queries to support scalable backend operations.

Expense Tracker : With ML Insights

MongoDB, Express.js, React.js, Node.js

🌐 [Source Code](#)

- Built a MERN-based expense management system supporting recurring transactions, loan tracking, and expense categorization.
- Designed REST APIs and implemented JWT-based authentication for secure user access.
- Applied machine learning models to analyze spending patterns and generate predictive insights.

NewsARC : Android News Application

Android SDK, Firebase, Room

🌐 [Source Code](#)

- Developed a real-time Android news application with Firebase authentication and personalized news feeds.
- Integrated NewsAPI for live data fetching and Room database for offline article storage.
- Improved UI performance using Retrofit and efficient networking techniques.

INTERNSHIP

Python Web Developer Intern — Passion Software Solution

Jul 2023 - Aug 2023

Django, Python, HTML, CSS, JavaScript, SQLite

Jalgaon

- Developed Django-based web modules with user authentication and CRUD functionality.
- Built data-driven dashboards using Django ORM and SQLite for efficient data handling.
- Collaborated with frontend developers to implement responsive UI components.

CERTIFICATIONS

Python for Data Science — NPTEL (IIT)

Android Application Development — Info Planet
